MORE REFUGEES REACH OGDEN

Crowds Being Handled With More Ease by Local Authorities.

The forty little orphans scheduled to arrive here from San Francisco failed to come in yesterday. There were plenty of other refugees and among the vast throng were many little children, but not orphans. The number passing here yesterday was about 800. They were all fed here and much clothing was distributed. The indications are that the work which the people of Ogden have been doing will have to be extended for at least another week. Many of those going through to the east now are traveling on regular transportation, but have no money to buy food, and must necessarily suffer unless the relief work is kept up. The local committee reports that they are entirely able to cope with the situation for an indefinite period, with the continued aid of the Ogden people.

Stories of Hardship.

The people coming represent every walk in life and are more than willing to tell their experiences to anyone who will listen to them. Each one thinks that his or her troubles are the worst. The sick and injured continue to arrive in large numbers and all are cared for as well as can be done under the circumstances and within the short space of time that they remain in the city. In the party en route east yesterday were eighteen glass blowers and their families. They were on the way to Denver, where they expect to receive substantial aid from their organization. The party was in charge of C. Roberts, secretary of San Francisco local No. 22 of the Glass Blowers' International Union. This is the second consignment of these mechanics to pass here. The first party numbered forty. Mr. Roberts stated that their ultimate destination was Chicago.

Union's I. O. U. Good.

He said that the national body had sent the San Francisco local a check for \$10,000 to relieve their immediate wants, but on account of the closing of the banks and the scarcity of money they had been unable to use any part of this amount. In the face of this difficulty they interested George Nave, agent for the Burlington at San Francisco, who accepted the union's "I. O. U." on the national body for their transportation to Denver. They speak in flattering terms of Mr. Nave and of the good work that he is accomplishing. They have telegraphed to the headquarters of the organization for \$35,000, which amount they expect to receive by check. One of the party was an invalid woman entirely helpless. She was carried from a burning building by her husband and her life saved in this way.

There was considerable more baggage with the refugees yesterday and in the main they were in good condition. The police have joined with the depot officials in keeping curious persons from the depot when the trains arrive. As a result the large crowds are being handled with greater ease.

Forty Japanese refugees occupied one car on the refugee special from here yesterday en route east. But few Chinese have arrived so far. There were a number in yesterday's throng and they took their turn in the mess tent to get something to eat.

A communication was received by Mayor Conroy yesterday from the Lafayette Park Relief committee of San Francisco, in which appreciation was expressed for supplies sent from Ogden and vicinity. The letter stated that their committee was feeding 25,000 people per day.

Randsford Fletcher, formerly of Ogden, was among the passengers on Southern Pacific No. 6 yesterday morning en route to Pennsylvania with the remains of a Mr. Hannah, who was a student at Stanford university and was killed in the San Francisco disaster. The body was being taken to his home for burial.

OPENS UP NEW MARKETS

San Francisco's Disaster Creates Demand for Utah Products From Northwest.

One of the beneficial results arising from the San Francisco disaster is the opening up of markets for Utah products. Orders are beginning to pour into Ogden from points in California, Washington and Oregon, especially for canned goods and sugar. The latter product is being shipped out at emergency rates. Heretofore efforts to enter these markets have been failures. The indications are now that the local markets will be cleaned up thoroughly this year before the new products are ready for the market.

CANNERS MEET AGAIN.

Organization Deferred Until a Full Meeting Can Be Held.

The canners of Utah held another meeting at the Weber club yesterday and further discussed the matter of perfecting an organization for their mutual protection. There was about the same representation as at the previous meeting, which covered all but about three of the local factories. The committee appointed to get the different companies to send a representative with power to act to yesterday's meeting reported that it had not yet heard from all the concerns and for that reason the representation was not sufficient to enable the meeting to take any definite steps. The committee was instructed to complete its work and report to the chairman, who was empowered to call another meeting, then to finish the work of organization.

Mr. Williams, mayor of Montpelier, brother of Councilman Ed Williams, has been the guest of the latter here for a few days. He has purchased an interest in the Williams livery here, also some property, and expects to locate in Ogden within a short time. He left for his home last evening.

Investment Company Organized.

Articles of incorporation were filed by the Stephens Investment company yesterday. The capital stock is placed at \$15,000, divided into shares of a par value of \$5 each. The concern is incorporated to do a general investment business. The officers are: President, Mrs. Zilphia J. Stephens; vice president, G. T.

Stephens; secretary, W. J. Stephens, and those, together with Edith M. Stephens and Mary A. Stephens, constitute the board of directors.

MAY DIE FROM KICK.

Harry Aikens of Slaterville Injured by Horse.

Harry Aikens, aged 45, a resident of Slaterville, was kicked over the heart by his horse about 5 o'clock yesterday afternoon, inflicting a severe wound, from which it is feared he will not recover. He was taking the horse out of the stable to hitch him up when accident occurred.

PLAT OF NEW TOWN.

Portland, Utah, Which is to Be Built by Cement Company.

At a meeting of the directors of the Union Portland Cement company held yesterday Engineer L. D. Spencer presented the plat for the town of Portland, which has been established in connection with the new cement works that will be located there. The town, it is claimed, will be a model one. A waterworks system will be built to supply the town and factory with water. Model cottages of five or six rooms will be erected for the workmen. The principal portion of the town will consist of seventy-three blocks.

Relief Worker's Loss.

W. M. Pierce, one of the relief committee workers, either lost or had stolen his purse containing a number of checks and money orders and \$5.00 in cash, at the Union depot yesterday afternoon. The matter was reported to the police, but no trace of the missing valuables could be found.

G. A. R. Encampment.

John Nelson and A. Van Patten of Dixon post, G. A. R., went to Salt Lake yesterday for the purpose of conferring with the general committee relative to the national encampment.

Sues for \$2,000.

P. A. Mattson has filed a complaint in the district court here against Calvert & Leek, brick manufacturers, in which damages are asked in the sum of \$2,000 for alleged injury done to property of the plaintiff. It is claimed that the brick people took clay for brick manufacture from the plaintiff's land.

May Be Wanted in California.

J. J. Brooks, who was arrested here about a week ago on the charge of highway robbery in Nevada, about a month ago, is said to be wanted in San Bernardino, Cal. on a charge of grand larceny. A telegram received by the local officers yesterday was to that effect, and Brooks is likely to be held for the California officers.

After the secretary's report, and the business brought before the club had been disposed of, a short interesting discussion of the coal mines and the effects of the strike was held. The hostess read William Cullen Bryant's poem, "Prairie." After refreshments, Miss Lois Pierce favored the club with music. Guests of the club were Messrs. J. M. and Edward E. Johnson, Nathan and R. BODIES FOUND BY CORONER

Victims of the Earthquake and Fire at San Francisco Now Number 333.

San Francisco, April 28.—Three hundred and thirty-three bodies, victims of the recent earthquake and fire, have now been found by Coroner William Walsh and his assistants. Many of the dead have been identified. All that were buried in the public squares during the days of the fire have been removed to the several cemeteries of the city. The coroner's data is fairly accurate, though his work and his reports are not yet complete.

Among the bodies identified yesterday were four members of the Johnson family, formerly residing at 287 Clementine street. The building there collapsed, burying in its ruins Nathan W. Johnson, his wife, Mrs. May J. Johnson, and 2-year-old son, Harold Johnson, and Edward E. Johnson, Nathan's brother. Fire later destroyed what little was left of the building. The charred remains of the dead were buried in the Laurel Hill cemetery. They were exhumed yesterday and identified by Clarence W. Johnson, brother of Nathan and Edward.

Another body identified yesterday was that of Bertha Fahn, who formerly lived at 1126 Howard street. She was killed by falling walls on the day of the earthquake.
